

47 (51.7%) agreed, 21 (23.1%) disagreed and 23 (25.3%) responded neutral. There were 12 comments. One affirmative comment was *My Evaluation was a true eye opener on my present skills and strong points and also my weaknesses.*

**Question 3:** – NCDSB helped me to make decisions about work.

59 (67.1%) agreed, 16 (18.2%) disagreed and 13 (14.8%) responded neutral. There were 14 comments (8 positive, 2 negative and 3 observations). An example of each follows:

Positive-(DSB) advised me that my condition did not mean that I was never going to be able to work. They taught me that there are others out there with my same condition, and that many good companies are aware of it.

Negative-I am in graduate school earning a Master of Arts and plan to teach school. NCDSB had no influence on that decision.

Neutral-True. But (I) did not listen because I am a carpenter.
